Art Unit: 2828

## **DETAILED ACTION**

## Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a device and method for adjusting currents of lamp tubes in a display having, inter alia, a low-frequency switch controller for turning on a first switch and a second switch by providing a first pulse and an inverted phase second pulse so as to generate first and second currents of the first and second lamp tubes; a feedback device receiving the first current as the first switch is turned ON and a main control device adjusting a driving voltage according to the feedback signal so as to adjust the first current when the first current is not equal to a predetermined value (claims 1 and 7). The remaining claims 2-6 and 8 are allowed by virtue of their dependencies on the independent clams. Hence, the examiner has allowed claims 1 through 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lin et al., Patent No. 6,534,934; Chiang et al., Patent No. 6,420,839; Henry, Patent No. 5,930,121; Williams, Patent No. 6,127,785.

None of the above patents discloses the device as recited.

Application/Control Number: 10/814,424

Art Unit: 2828

## Correspondence
